

Guidelines for Evaluation of SPARK Proposal:

A. METHODOLOGY: (500 max)

- Objectives – Accurate, Feasible, Specific, measurable. (100 max)
- Procedures/Method of data collection. (100 max)
- Appropriateness of Study Design. (100 max)
- Assessment tools. (100 max)
- Appropriateness of methods of data analysis/ statistical analysis. (100 max)

❖ Reviewers need to check and correlate the title with the methodology.

B. NOVELTY: (100 max)

- Novelty of ideas. (30 max)
- New approach in the existing concepts/ knowledge. (30 max)
- Formulation of the problem and hypotheses. (40 max)

C. RELEVANCE & FEASIBILITY: (100 max)

- Significance of research question. (30 max)
- Relevance in terms of Translational value. (30 max)
- Appropriateness of timeline. (20 max)
- Achievability of the Objectives. (20 max)

EVALUATION FORMAT OF PROPOSAL

S. No.	Criteria	Marks out of 700	Marks obtained	Remarks
1.	Methodology (Objectives, Materials & methods, parameters, formats, protocols, design, expected outcome, etc. of the proposed work)	500		
2.	Novelty	100		
3.	Relevance and feasibility of taking work in the current setup within time limit.	100		
Total marks obtained				
Overall Remarks:
